

YOU DRIVE

I'm this fuckin' close
To a heart attack
I would have hit the bottle
If it didn't hit back

I'm this fuckin' close
Not just you
To a heart attack
What can you do
I would have hit the bottle
Do it! Do It!
If it didn't hit back

You try to make me bathe naked
Don't mind that you do
But if there's blood in the water
That's when I make love to you
That's when I make love to you

I wanna fry my liver
Set fire to my heart
But I keep it all together
While I'm falling apart

I wanna fry my liver
Not just you
Set fire to my heart
What can you do
But I keep it all together
Do it! Do It!
While I'm falling apart

You try to make me bathe naked
Don't mind that you do
But if there's blood in the water
That's when I make love to you
That's when I make love to you

Let's wreck my life again
You drive
A trip down memory pain
You drive
Bring on the bloodstains
You drive
Let's wreck my life again
You drive
