

# CRY ME SEXY

We have one foot on the bridge  
So now it's all about trust  
Do we have the courage to cross over  
And strike a match behind us

I know the motor is getting rusty  
But we can make it start

Uncertainty like a cancer  
Facts becoming suggestions  
I used to know all the answers  
Until time changed the questions

I know the motor is getting rusty  
But we can make it start  
So c'mon girl, cry me sexy  
Set fire to my heart

It's time we made it of here and touched base on solid ground

You know I love you to death  
I'm glad the motor broke  
Let's set ourselves on fire  
And let our lives follow the smoke

I know the motor is getting rusty  
But we can make it start  
So c'mon girl, cry me sexy  
Set fire to my heart

It's time we made it of here and touched base on solid ground
