

# GET AWAY FROM ME

Music: Schau

Lyrics: Schau

Guess you went for the ultimate poison  
Of all the guys you could have chosen  
You picked the only one that I am not

What can I say? I'm really sorry  
I'm not a lie, I'm just a different story  
You have no idea of the sickness I've got

I'm beggin' you

## **Get away from me**

I'm doing my best but I can't  
Understand  
How you can  
Let a man  
Like me get close to you

If I told you suicide thrills me  
And that the thought of survival kills me  
Would you be up for that kind of misery

But I will embrace your dilusion  
If you'll accept all hope as illusion  
And let denial score another victory

If not, you must

## **Get away from me**

I'm doing my best but I can't  
Understand  
How you can  
Let a man  
Like me get close to you
